Presidents Report

Welcome members to Swap Meet Month
March is Swap meet month and along with the swap meet comes lots of background organisation and phone calls. Jill has been doing a great job of organising media getting the word out to radio stations and community announcements etc for the club’s swap meet. Vince has been out putting up signs, talking to the showground trust re the Rodeo being on the day/night before the swap etc, Shelley has been organising the logistical stuff, food quantity’s, numbers of packs of this & that, and the float. Don is away enjoying a cruise but organised some safety gear for the grounds he said he will be back just in time for the swap meet.

As the holder of the club phone I have had my fair share of radiation this month with the phone ringing hot with enquires, if half the number of the phone calls for stalls/sites turn up we will have a full ground fingers crossed. Don’t forget this swap meet is what funds the club outings, fills your tummy’s on BBQ runs and enables the club to contribute to community groups like Breakaway and the many other organisations that we as members have supported via donations over the years. So come along get involved take on a job at the swap meet and make it yours from the front gate to the back, car park to swap ground, or in the kitchen if every one dose just a little a lot gets done.

On to last months runs again things didn’t quite go to plan with the Go kart night being turned into a fish and chip run to Woy Woy as the go kart place was let down by the local council not giving the final approval. We were to be the first racers at the new track but that will have to be re scheduled. The next day some members went to a car display near Newcastle and from all reports a good day was had with a wide variety of cars on display.

Don’t for get to check your emails/texts for club events or changes and if you have changed any details let Shelley know so we can update the text and email lists.

Don’t forget to take a look in the events section we have a display as part of the Ettalong community street event we had a good roll up of cars last year and we had lunch at the hotel up the road and the cars looked great on display.

On a sad note we learnt of the passing of a former member Penny who was a former club tressure and the partner of Andrew Bentley, the club sent flowers and Andrew has asked us to let the members know that the family are all doing well and the flowers were appreciated.

See you out & about in your Holden.

Chris

Photo Gallery
Well after a good start last month with the in the shed page, this month the shed is empty that’s right nothing not even a picture of a project in someone’s shed was sent in. Come on members please send in something even if it is just a photo of the shed / car in shed any thing please!!!!!!

So this month you get.... Getting the car to Trev’s shed car story.

With the track day coming up I need to fix up some item’s on the VL, I have damaged my back preventing me from doing some of the work so need the use of Trev’s shed. It’s air conditioned remember, it has creature comforts that I don’t have so its off to the Magic of Trev’s shed.

So the race VL is the last car in the line up of cars at my place. I haven’t been able to use the other cars recently and so the shuffle starts Only one entry to our place and not enough room in the driveway for them all and don’t like advertising/leaving them on the street. We start the move 1st the company car then move the Prado to be able to move the Clubsport to access the car trailer, move Prado to hitch up trailer put out on the road and move clubsport back in. Move Shelley’s ute out use next doors driveway to park it, move blue VL out then move race VL out decide to put Clubsport out the back behind blue VL so squeeze clubsport around the 2 VL’s and Reverse it in, then reverse Blue VL back into its spot, then Shelley gives the race car a wash then we put the Race VL on trailer put Shelley’s ute back in and finally the company car then it’s off to Trevor’s to put in Trev’s shed for Shelley to do some work on it.

Now I need to lie down and have a rest.
Morisset Central Coast
